

This is some nice text in **Bierstadt**, Baby. Will it be the next *default font* of Microsoft Word? Is it a good font? I'm not sure, if I like it. Let's see some numbers. 12,345 or 67.89, even 10. This might be good for some numbers. Bierstadt is a pretty stupid name.

This is some nice text in **Grandview**, Baby. Will it be the next *default font* of Microsoft Word? Is it a good font? I'm not sure, if I like it. Let's see some numbers. 123,45 or 67.89, even 10. This might be good for some numbers. Grandview is a better name here.

This is some nice text in **Seaford**, Baby. Will it be the next *default font* of Microsoft Word? Is it a good font? I'm not sure, if I like it. Let's see some numbers. 12,345 67.89, even 10. This might be good for some numbers. Seaford is a better name here.

This is some nice text in **Skeena**, Baby. Will it be the next *default font* of Microsoft Word? Is it a good font? I'm not sure, if I like it. Let's see some numbers. 12,345 67.89, even 10. This might be good for some numbers. Skeena is a better name here.

This is some nice text in **Tenorite**, Baby. Will it be the next *default font* of Microsoft Word? Is it a good font? I'm not sure, if I like it. Let's see some numbers. 12,345 or 67.89, even 10. This might be good for some numbers. Tenorite is a name impossible to memorize for me.
